

**NS6130-12-002472**

## Quick Facts

Product	:	Boron Nano Fertilizers
Stock No	:	NS6130-12-002472
CAS	:	7440-42-8
Molecular Formula	:	B
Density	:	1.2g/cc
Form	:	Powder

# BORON

## Nano Fertilizers

**Purity**  
99%

Boron nano fertilizers improve nutrient absorption, solubility, and targeted delivery, ensuring plants receive boron at the right time and in optimal amounts. This enhances crop yields, quality, and growth while reducing waste and environmental impact compared to traditional fertilizers. The small particles increase efficiency and availability in soil.

### Applications of Boron Nano Fertilizers:

**Agriculture:** Enhances the growth of crops, especially those sensitive to boron deficiencies like fruits, vegetables, and legumes.

**Horticulture:** Promotes better flowering, fruiting, and seed development in plants.

**Soil Health:** Improves soil fertility by making boron more available for plant uptake.

**Greenhouses:** Used to optimize plant health and yield in controlled environments.
