

NS6130-12-000982

POLYURETHANE

Quick Facts

Product	:	Polyurethane
Stock No	:	NS6130-12-000982
CAS	:	9009-54-5
Molecular Formula	:	C ₃ H ₈ N ₂ O
APS	:	40-60µm

Purity
>99.9%

Polyurethane is a polymer composed of organic units joined by carbamate (urethane) links. It is a versatile material with a wide range of applications in various industries, including automotive, construction, furniture, and packaging. Polyurethane can be produced in various forms, including flexible foam, rigid foam, coatings, adhesives, and elastomers. Polyurethane coatings and adhesives provide protection and bonding in a range of applications, from industrial to consumer products. Elastomers, such as polyurethane rubber, have excellent abrasion resistance and are used in applications where durability is critical.
