

**NS6130-12-001066**

## Quick Facts

|                   |   |                          |
|-------------------|---|--------------------------|
| Product           | : | Chromium Nano Dispersion |
| Stock No          | : | NS6130-12-001066         |
| CAS               | : | 7440-62-2                |
| Molecular Formula | : | Cr                       |
| Form              | : | Liquid                   |

# Chromium

## Nano Dispersion

**Purity**  
99.9%

## Technical Specification

| Concentration | Solvent   | APS      |
|---------------|-----------|----------|
| 2%            | NMP/Water | 80-100nm |

Chromium nano dispersion has potential applications in various fields due to its unique properties. Chromium nano dispersion can be used in corrosion protection applications, such as in the production of corrosion-resistant coatings for metals. Chromium nano dispersion can be used in biomedical applications, such as in imaging and drug delivery. Chromium nano dispersion can be used in environmental remediation applications, such as the removal of pollutants from contaminated water.
