

SUPPORTED CATALYST

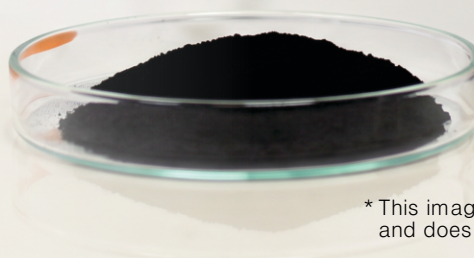

Palladium

on Titanium Oxide Rutile

Palladium supported on rutile titanium oxide for heterogeneous catalysis.

Quick Facts

FORMULA	Pd/TiO ₂
FORM	Powder
SUPPORT	Rutile TiO ₂

* This image is for graphic purposes only and does not represent the actual product.

TECHNICAL SPECIFICATIONS

99.9 %
Purity

40–60 μm
Particle size · APS

1%
Palladium loading

Applications

From chemical reactions to industrial processes.

Chemical catalysis

Supported catalyst for heterogeneous chemical reactions.

Environmental processes

Applications in water treatment and air purification.

Petrochemical production

Catalytic processing for plastics, polymers and synthetic fibres.

PACK SIZES

25 g / 50 g / 100 g / 500 g / Bulk orders

ISO 9001:2015
