

NS6130-12-001470

SULPHUR

Nano Dispersion

Quick Facts

Product	:	Sulphur Nano Dispersion
Stock No	:	NS6130-12-001470
CAS	:	7704-34-9
Molecular Formula	:	S
Form	:	Liquid
Molecular Weight	:	32.065g/mol

Purity
99.99%

Sulfur nanoparticles have unique properties such as high surface area, reactivity, and catalytic activity, which make them useful in a variety of applications. Sulfur nanoparticles are also used in other applications such as vulcanization of rubber, pesticides, and fungicides. They are also being investigated for their potential in biomedical applications such as drug delivery and cancer therapy. Sulfur nano dispersion is a promising material with potential applications in various fields, particularly in energy storage.
