

NS6130-12-001563

Quick Facts

Product	:	Potassium Chloride
Stock No	:	NS6130-12-001563
CAS	:	7447-40-7
Molecular Formula	:	KCl
Form	:	Powder
Color	:	White Crystalline

Technical Specification

Molecular Weight	Density	Melting Point	APS
74.55g/mol	1.98g/cm ³	770°C	40-60µm

Potassium chloride is a colorless crystalline salt with the chemical formula KCl. It is a common compound used in various industrial, medical, and household applications. Potassium chloride is used as a low-sodium salt substitute in various foods, such as soups, sauces, and snacks. Potassium chloride is used in various industrial applications, such as oil and gas drilling, metal processing, and chemical manufacturing. It is used as a source of potassium and as a catalyst in various chemical reactions. , potassium chloride is a versatile compound used in fertilizers, food additives, water treatment, medicine, industrial applications, and deicing.

POTASSIUM Chloride
