Activated Alumina Powder

Activated Alumina Powder is manufactured for water adsorption and filtration applications by adsorbing impurities from the surrounding environment. Activated alumina powder can be used in a wide range of applications including the production of chemicals, pharmaceuticals, and in static or dynamic dehydration applications.

Quick Facts

Product	:	Activated Alumina Powder
Stock No	:	NS6130-12-001750
CAS	:	1344-28-1
Purity	:	>95%
Color	:	White
Form	:	Powder

Applications

- Abrasives, Refractories
- Glass, ceramics
- Used in dehydration or filtration applications
- Capable of dehydrating surrounding environment
- Ideal for the production of chemicals and pharmaceuticals
