

Amino functionalized **GRAPHITE**

NS6130-12-001793

Quick Facts

Product	:	Amino Functionalized Graphene
Stock No	:	NS6130-12-001793
Molecular Formula	:	NCxHyOz
Form	:	Powder

Technical Specification

APS	Purity
10µm	99.9%

Over the past decade, product based on Amino Functionalized Graphene have created fast growing consumer market. Amino-functionalized graphene was prepared for enhanced antibacterial, exhibiting enhanced electro-catalytic, improve thermal, electrical and mechanical properties.

Applications:

- Polymer filler, rubber filler
- Hydrophobic surface
- Lubrication
- Biosensing
- Electrochemical sensing applications
