

NS6130-10-1322

STAINLESS STEEL (SS316)

Quick Facts

Product	:	Stainless Steel (SS316)
Stock No	:	NS6130-10-1322
CAS	:	1313-99-1
Purity	:	>99.99%
Thickness	:	1mm
Diameter	:	100mm

Stainless steel SS316 is a versatile material that is widely used in various industries due to its excellent corrosion resistance, high strength, and biocompatibility. Stainless steel SS316 is used extensively in chemical and petrochemical processing applications, such as reactors, piping, and storage tanks. Stainless steel SS316 is commonly used in the manufacture of medical and dental implants, including hip and knee replacements, dental implants, and orthopedic screws. Stainless steel SS316 is used extensively in marine and offshore structures, including boats, ships, oil platforms, and pipelines.
