

ZIRCONIUM COBALT

Sputtering Target

NS6130-10-1356

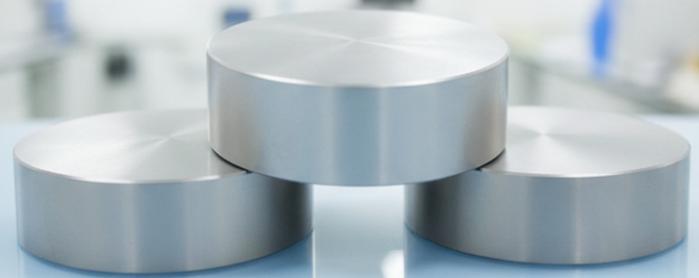

Quick Facts

Product	:	Zirconium Cobalt Sputtering Target
Stock No	:	NS6130-10-1356
Molecular Formula	:	Zr/Co
Form	:	Solid

Technical Specification

Diameter	Thickness	Molecular formula
76.2mm	2mm	Zr/Co

Zirconium cobalt sputtering target is used in applications where the deposited thin films require high wear resistance and corrosion resistance, such as in the production of magnetic storage media, hard coatings, and wear-resistant coatings. Zirconium cobalt sputtering target used in various industries, including the semiconductor, aerospace, and medical industries.
