

NS6130-02-277

SILVER PALLADIUM

Nanoparticles

Quick Facts

Product	:	Silver Palladium Nanoparticles
Stock No	:	NS6130-02-277
CAS	:	7440-22-4 / 7440-05-3
Molecular Formula	:	Ag/Pd
Form	:	Powder

Purity
99.9%

Technical Specification

Bulk density	Density	APS
0.35 g/cm ³	10.5 g/cm ³	20-40nm

Silver Palladium Nanoparticle is also used in conductive films and pastes, as well as to make multilayer capacitors. They are also used in AC and DC low current electronic applications, often as contacts.

Application

- ✓ Used in dentistry
- ✓ Used in bridges and crowns
- ✓ Used in conductive films and pastes
- ✓ Used in multilayer capacitors

Ag/Pd
APS 20-40nm
