

NS6130-12-000682

Quick Facts

Product	:	Aquarium Carbon
Stock No	:	NS6130-12-000682
CAS	:	7440-44-0
Molecular Formula	:	C
Purity	:	99.9%

Technical Specification

Molecular Weight	Color	APS
12.01g/mol	Black	1-10µm

Aquarium carbon, also known as activated carbon or activated charcoal, is a type of granular activated carbon that is specifically designed for use in aquariums to help maintain water quality. Aquarium carbon is used to remove impurities and pollutants from aquarium water, such as dissolved organic compounds, heavy metals, chlorine, and some medications. It can also help to eliminate odors and discoloration in the water, resulting in a cleaner and clearer environment for aquatic life.
