L-ascorbic acid, also known as vitamin C, has a wide range of applications in various industries. It is commonly added to fruit juices, baked goods, processed meats, and canned foods. L-ascorbic acid is a popular ingredient in skincare products, especially in anti-aging formulations. It helps to boost collagen production, reduce the appearance of fine lines and wrinkles, and brighten the skin tone. It is also used in hair care products to strengthen hair strands and prevent hair loss. It is also used in the production of polymers and plastics as a polymerization initiator and stabilizer.
