

NS6130-12-001656

NICKEL COBALT

Manganese Oxide Powder

Quick Facts

Product	:	Nickel Cobalt Manganese Oxide Powder
Stock No	:	NS6130-12-001656
Molecular Formula	:	NiCoMn(OH) ₂
Form	:	Powder
APS	:	40-60µm

Purity
99.9%

Nickel cobalt manganese oxide (NCM) is a type of ternary cathode material used in lithium-ion batteries. Nickel cobalt manganese oxide is a promising material for use in lithium-ion batteries for a variety of applications, including electric vehicles, portable electronics, energy storage systems, and medical devices. NCM cathode materials are used in a variety of applications, including electric vehicles, portable electronics, and energy storage systems. The advantages of using NCM materials include high energy density, good cycle life, and improved safety compared to other cathode materials.

NiCoMn(OH)₂

APS 40-60µm
