

NS6130-12-000913

Quick Facts

Product	:	Polyamide-imide Resin
Stock No	:	NS6130-12-000913
CAS	:	-
Molecular Formula	:	-
Form	:	-
Color	:	-

Technical Specification

Tensile Strength	Density	Melting Point	APS
152MPa	1.42g/cm ³	-	-

Polyamide-imide (PAI) resin is a type of high-performance thermoplastic material that is widely used in various applications requiring high temperature resistance, mechanical strength, and chemical resistance. Polyamide-imide (PAI) resin used in applications such as aerospace, automotive, electronics, and industrial manufacturing. It is used in parts that require high strength and temperature resistance, such as turbine engine components, electrical connectors, bearings, and insulators.

POLYAMIDE-IMIDE Resin

Purity
99%

Speciality CHEMICALS
