|------------------|----------------------------|---------|
| 233.04 g/mol | 1.75-1.9 g/cm ³ | 40-50µm |

Viton powder, as the name suggests, refers to finely ground particles of Viton material. This powder can be used in a variety of applications, including as a coating material, a sealing agent, or a component in adhesives, among others. Viton powder is known for its excellent chemical resistance and high-temperature tolerance, making it ideal for use in harsh environments.
