NS6130-12-001902

CAS : 471-3-1

Coral calcium is a salt of calcium derived from fossilized coral reefs. Coral calcium powder use as a mineral source, coral calcium has emerged as a supplement within the category of "anti-aging" products. Calcium coral supplements help to treat conditions for instance sclerosis, heart disease cancer, and other chronic health problems. It may be used for the treatment of hyperphosphatemia (primarily in patients with chronic renal failure) as a phosphate binder. It is also utilized in the pharmaceutical industry as inert filler for tablets and it is employed in the production of calcium oxide as well as toothpaste.
