

Inconel 718

Alloys Powder

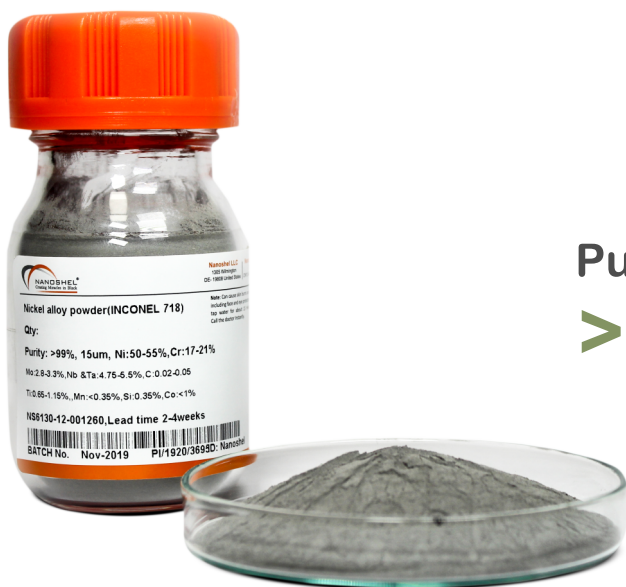

An alloy is a mixture of chemical elements of which at least one is a metal. Unlike chemical compounds with metallic bases, an alloy will retain all the properties of a metal in the resulting material, such as electrical conductivity, ductility, opacity, and luster, but may have properties that differ from those of the pure metals, such as increased strength or hardness.

Stock No:

NS6130-12-001260

INCONEL alloy 718 is a (nickel based alloy) high-strength, corrosion-resistant high strength in temperature ranges from cryogenic up to 1400°F.

- Gas turbine engine parts
- Aerospace and aircraft manufacturing
- Die casting

Purity
>99%

Foam : Powder

APS:
15µm
